Positive energy and art will move mountains...

Dear

Welcome to my many new subscribers and visitors.

There is enough bad news around. I will always send you only good news - like I only write about art I like. I'm an art recommender, not an art critic.

The good news is on the front page of the rich and diverse [Oberg PhotoGraphics homepage](#): The Silk Peace Art Road (SPAR) Installation for artful intercultural dialogue + two new articles that take you to the world's largest contemporary art fair Art Basel and to Photo Basel - text, photos and some video interviews.

I am also proud to present no less than [22 new art photographics works](#) published for the first time. Some are years old, some brand new.

Before you head over there, you should scroll down the sections below. I mean... if you haven't done so before. First-time visitors tell me that they can spend hours browsing around in the many rooms of my art home.

Stay for as long as you like. All is free... except if you buy one of my works. They are very affordable because you buy

directly from me, no gallery profits  
between us...

☐ Wishing you a happy July, I remain  
yours,

*Jan Oberg*

I mean, why do people who spend hours reading a book or seeing a movie think that a homepage is something to be consumed in 20 seconds?

## "Photo And Other Art" Blog

This blog contains ponderings, short videos, articles, exhibition notes, art fairs, books about *other* artists and their work. I'm not an art critic but an art recommender and I like to share things I like... positive energy. (What I write about my own work can be found [here](#)).

## "Global Art" Magazine

Since I read a lot of art stuff, I curate this online magazine on the excellent *Flipboard*. It's nothing systematic, art academic or with an elaborate editorial policy. No, it's a spontaneous endeavour. To share is to care - here for others who are interested in contemporary art.

## *Research and public education for a future in peace*

I wrote above that I am an art photographer *and* a peace & future researcher. Those are my two parallel lives which increasingly converge. I thought that some of my art-loving friends might like to know a bit about that other life of mine.

TFF is a 100% independent network of world experts on peace and global affairs. Set up in 1986 by my wife Christina and me, we and our 50+ Associates around the world have produced 7000+ research-based articles for public education. We're exclusively people-financed and never mainstream - you can't be mainstream in this militarized world. We're committed, instead, to the UN Charter's provision that "peace shall be established by peaceful means." That's the most Gandhian document governments have ever signed.

□ *"I take, make and share art & documentary photography and combine it with peace research, hoping to help bring about a better future for all. It's the arts more than anything else that keeps us human. And I believe in global cooperation, sharing and positive energy."*
